

# CONTINUING CARE

**ROSE** You can *live* here  
VILLA

## You can *be supported* here

At Rose Villa, residents are cared for and supported in a holistic manner with a focus on quality of life and meaningful engagement, as defined by the individual person. This means getting to know each resident and building a trusted relationship where they feel safe and comfortable to be their authentic selves.

Recognizing that each member of the community has unique preferences, needs, and goals, we place great importance on personalized care. Respecting the autonomy, dignity, and choices of residents, we prioritize individualized care plans, tailored services, and attentive support.

By going beyond a one-size-fits-all approach, Rose Villa ensures that residents receive the care and assistance they require while ensuring they remain in the drivers' seat.

### Continuum of Care

- The Clinic
- Avencia Home Care
- Madrona Grove Supportive Living

# The Clinic

Our onsite clinic offers a range of nursing services and social services to Rose Villa residents. Conveniently located in the heart of campus in our Schroeder Lofts building, The Clinic plays a vital role in our continuum of care by promoting wellness, independence, and peace of mind.

Nursing services are offered by The Clinic in scheduled visits. Our team of healthcare professionals perform routine nursing services and acute nursing services. Health monitoring, blood pressure checks, wound care, nurse assessments, and medication administration are examples of nursing services offered by The Clinic.

Through assessment and care planning, our social services team works 1:1 with residents to address their needs. Emotional support, conflict resolution, integration with community resources, and assistance navigating the broader healthcare system are examples of social services offered by The Clinic.

We're well-known for being a one-of-a-kind, loving, independence forward community centered around each person who lives here. Come visit, see the places, meet the people—and experience a level of caring authenticity unique to Rose Villa.

# Avencia Home Care

You want to live independently, doing the things that bring you joy, fulfillment, and stimulation. And you don't want to have to move just because you need a little assistance. That's why we started Avencia—our Licensed In-Home Care Agency. Avencia brings the health services you need, when you schedule them, and where you want them most: in the privacy of your home.

This innovative approach empowers you to work one-to-one with staff to create your ideal care schedule with no minimum hours requirement. The trusted professionals you know will provide exactly what you need—in as little as 20-minute increments— even as your needs evolve.

It's a decidedly different approach to personalized home care designed to help you stay connected to the people and pursuits that matter the most to you.

# Madrona Grove

## Supportive Living

At Madrona Grove, licensed nurses and nursing assistants provide 24-hour care on both a long-term residential basis and for short-term recuperative stays. This is more than just a place where people receive nursing services. It is home.

Reminiscent of a large, comfortable farmhouse, Madrona Grove features 32 individual rooms, each outfitted with its own private full bath and kitchenette. Residents are encouraged to furnish and decorate their room to their own tastes and preferences.

The Madrona Grove neighborhood itself is divided into two households of sixteen residents who live, dine, cook, and participate in activities together, yet also have the privacy of their own space. Residents of Madrona Grove have access to all campus amenities and activities in addition to those being held in Madrona Grove itself.

Independent living residents receive five days per calendar year in Madrona Grove, without additional charge, when the resident's condition requires 24-hour care and the admission is ordered by a physician. This benefit renews every year.

# FAQ

## Frequently Asked Questions

### What is Madrona Grove's license?

Fernwood is located on the first floor of Madrona Grove and is licensed as a Nursing Facility Intermediate Care Facility (NF-ICF). Fernwood is also Medicaid certified. Larkspur is located on the second floor of Madrona Grove and is licensed as a Residential Care Facility (RCF). Regardless of the licensure that underpins the care, both Fernwood and Larkspur are staffed 24-hours a day with a licensed nurse and nursing assistants. We believe that residents should not need to move each time their care needs change, so Fernwood and Larkspur are both designed and staffed to serve residents through the end of life.

### Do you have Skilled Nursing Facility (SNF) Rehab Services?

Rose Villa does not offer Skilled Nursing Facility services. We help advise you on your SNF options and participate in your care coordination and discharge planning to ensure continuity of high-quality care.

### Does Avencia Home Care offer on-demand services?

Avencia services are not on-demand. All Avencia services need to be scheduled ahead of time.

### Does Rose Villa have Emergency Response from Healthcare Staff?

Rose Villa residents are encouraged to call 911 during a health emergency. A 911 call made from a Rose Villa landline will alert our operational staff and they will help direct emergency responders to your location. If a 911 call is made on a Rose Villa landline during The Clinic's operating hours, a member of Rose Villa's healthcare team will come to the location of the health emergency.

- (Licensed Massage Therapist, Beauty Salon, etc.)

Each resident in independent living may receive five (5) days stay per calendar year in Madrona Grove, without additional charge, when the resident's condition requires 24-hour nursing care and the admission is ordered by a physician. This benefit renews every year. New residents also receive this benefit regardless of the month they moved into Rose Villa. A Rose Villa resident is eligible for this program if they are current on all payment obligations to Rose Villa. If Madrona Grove is full, residents may receive five (5) free days of Avencia services in their home if Avencia is able to meet the resident's needs.
